2017 “Vagabond” 10-day Trip

By Dwayne Patenaude

Anticipation was high as we gathered for this years 10-day trip on the “Vagabond”. Old friends who probably see each other only on this annual trip said hello and we threw our gear on the boat.

Our 400 scoops of sardines were carefully loaded into the tanks and the slammer and we headed south toward Ensenada, where we would be checking in that evening. We had been granted access to Guadalupe island, 190 miles southwest of Ensenada, and we were excited as the 100-150 lb. yellowfin tuna had been biting real well. Mike gave us a great seminar on the way down on how to fish the large yellowfin amongst the great white sharks that gather every year in the Fall.

We were greeted with great weather and proceeded to boat 40 of those gorgeous yellowfin tuna. We did lose quite a few to tackle failures and the sharks but that was expected! After we left Guadalupe we headed toward the Ridge where we would target 20-to-30 lb. tuna. Mike explained that wahoo fishing had been tough this year and he would do the best he could looking for kelps on the way down that might hold a school of wahoo and dorado. Well, even the kelps were none existent, and we struck out.

We reached the Ridge and, Mike went from spot to spot looking for something to catch. He finally found a school of nice quality tuna and we fished it for a couple of days before we handed it off to one of the other long-range boats. Asking around on the radio and hearing the only action around the banks was a marlin bite on the Thetis bank. Mike decided to head up the beach, looking for yellowtail. We went from spot to spot, only to find ugly green water that was devoid of life. Up the beach we went desperately looking for some yellows and, finally north of San Martin Island a couple of hours we found what we were looking for. Mike started chumming the rest of the sardines we had and, the yellows wanted to play. They boiled around the boat all morning as we had fun catching them all the favorite ways. Mike knew that we needed to get our annual deckhand fishing tournament done, so we took a 30 minute break and gave the deckhands about 30 minutes of fun competing for the \$300 we had collected. When the dust settled, Andrew (Fluffy) was the winner with the largest fish!

The deckhands surrendered the deck back to us and the fun continued as the yellows were having fun chasing our sardines around the boat. Finally, we were out of sardines and we pointed the nose of the boat towards Ensenada, where we had to check in once again with the Mexican government as required if you want to fish Guadalupe Island.

The morning sunrise was beautiful the following morning as we pulled into San Diego Bay, cleared customs with our own Border Patrol at the police dock, and headed for the landing to unload our fish. A fishing adventure to remember!

“Vagabond” Re-Ride

By Dwayne Patenaude

Ten days later after our club 10-day trip, a group of us jumped back on the “Vagabond” for a 5.5-day trip back to Guadalupe: Dwayne, John Nakatani, Dean Lewis, Rob Filson. John Gleaves and old club member Matt Green who flew in from Florida to join us.

After all the check-in and travel, we arrived at Guadalupe about 4 am on a Wed morning. Weather was great and the fish started to bite immediately, but this time, no sharks to be seen! We fished all day and ended up catching 40 tuna between 100 and 150, rivaling any long-range trip to the Lower Banks.

Next day was a little slower, with a lot of tackle failures. Mike was correct when he said "Good enough" does not work at this island. The only thing that works is "perfect" tackle and preparation! We still ended up catching about 20 tuna for the day.

The third and final day started off better than the day before, and when the dust settled, we caught about 25 more for the day, bringing our total to 85 gorgeous tuna, weighing between 100 and 150 lbs. We are very lucky that Mexico has allowed 10 boats to fish this wonderful place and, if you ever get a chance to go, take advantage of it!

What I did learn this trip was that the sharks generally have migrated out by the first week in November, so that takes that problem off the table. The other thing I learned was that there are a lot of ways to lose these tuna but there is only one way to catch these things. Everything has to be perfect and nothing left to chance. Check everything all the time!

10-Day Charter on the “Vagabond”

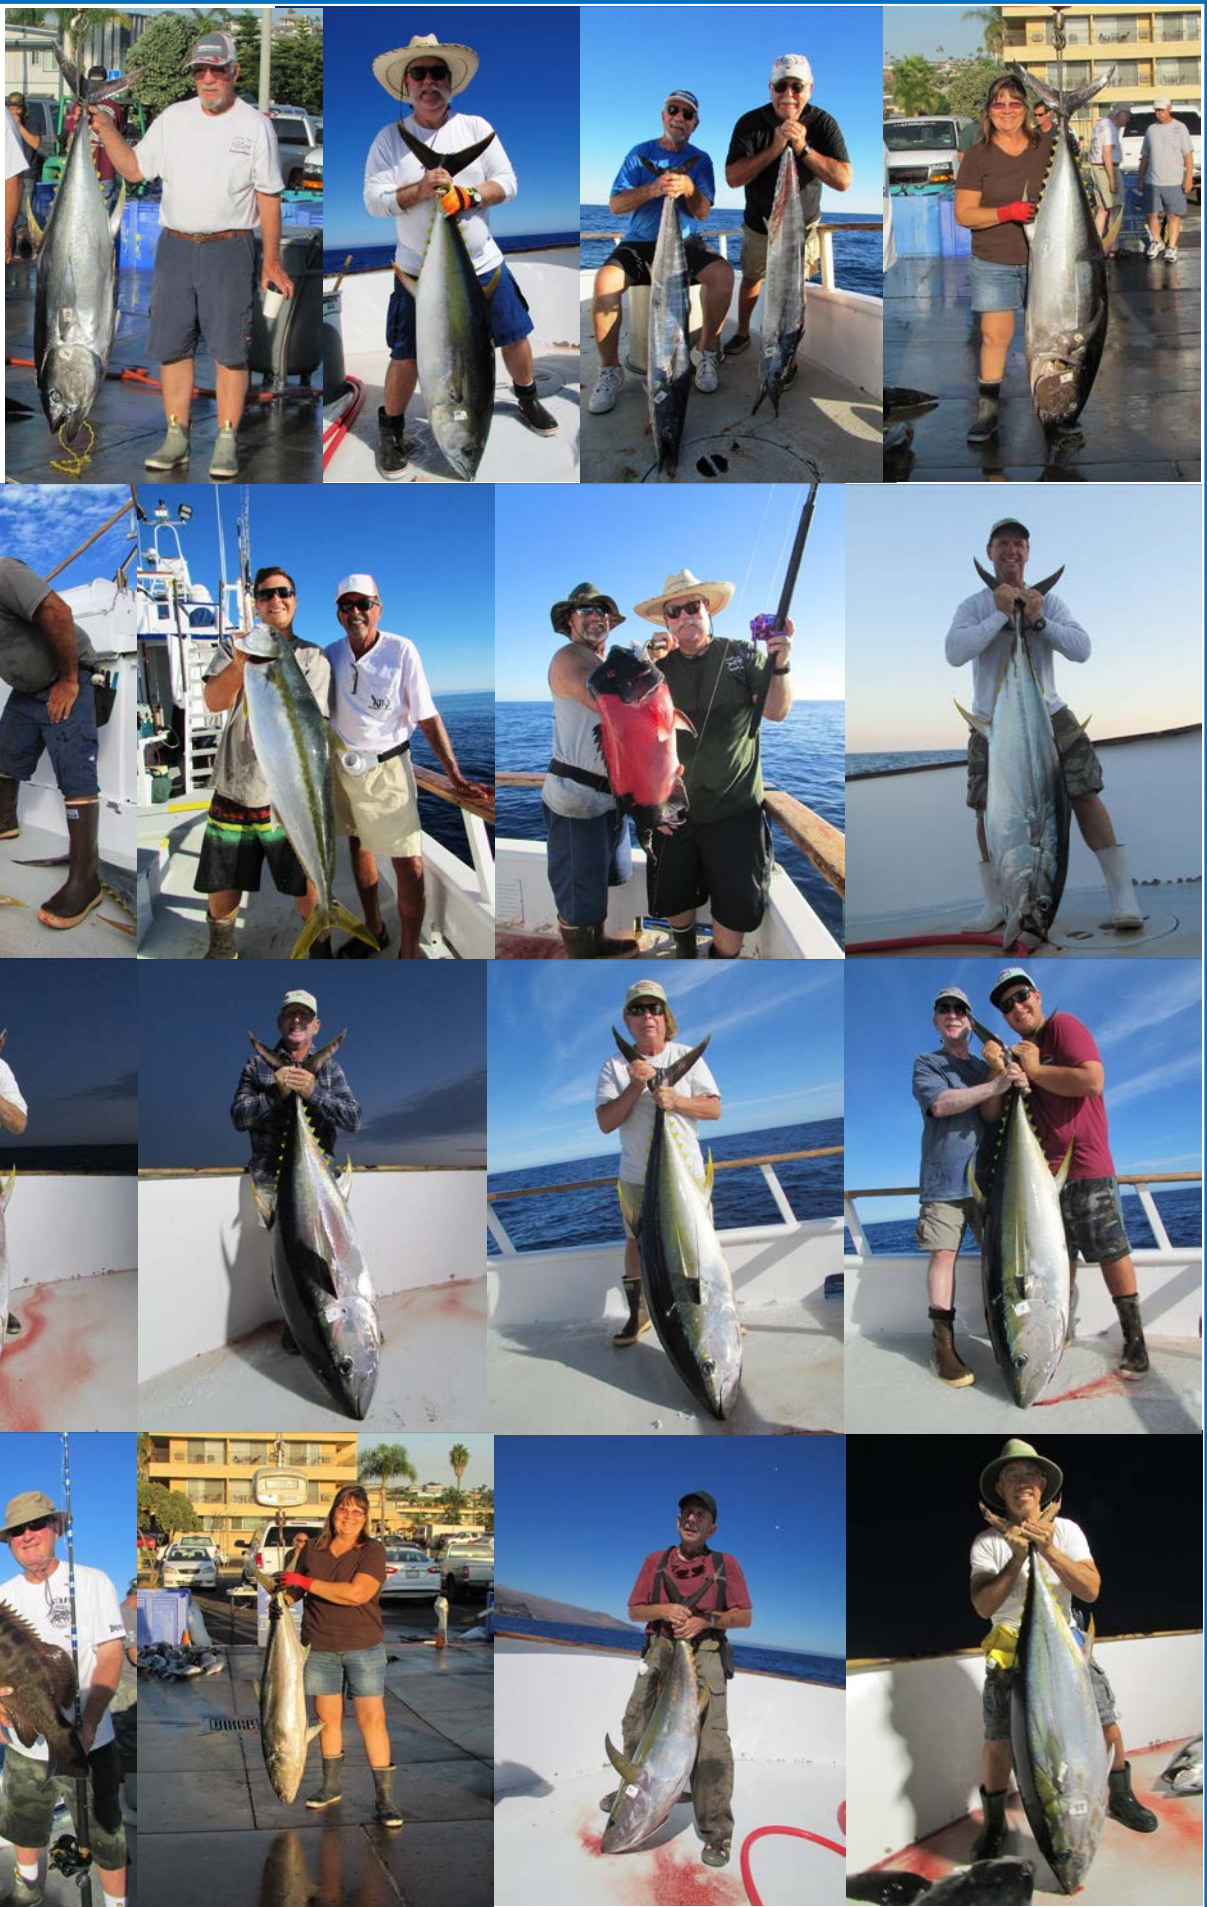

By Debbie Patenaude

The San Diego Anglers 10-day long-range fishing trip on the boat “Vagabond”, out of Point Loma Sportfishing, was a fabulous trip! We stopped at Guadalupe for a couple of days on the way down to the Ridge. Many of us got our personal best Yellowfin tuna on this trip at Guadalupe and a couple personal best Yellowtail! You had to be quick at the Island or the Great White Sharks would eat your fish before you could get it on board. That being said, everyone got one of the huge Yellowfin and some halves. On the Ridge, we got a few Wahoo, 25-lb.-class Yellowfin, a few Dorado, and plenty of Yellowtail. It was an amazing trip! The crew was spectacular. You become part of their family for 10 days. The food couldn't be better or more plentiful. Captain Mike Lackey must be part fish because, year after year trip after trip, he puts us on the fish! He was actually up in the crow's nest looking for kelp patches... not many captains will do that! So... Hats off to a wonderful trip, crew, boat, and an amazing group of friends!

Tackle Days 2017

by Bobby Rollins

I want to thank everyone that worked as a well-oiled machine by making the Casting Contest a great success! Doug Kern's Tackle Day event did not disappoint. When Doug asked us to run the first-ever casting contest for him, we jumped in with both feet.

Doug provide four 9-foot casting rods with Tranx reels loaded with 40-lb-test line. The contestants lined up at 0930 hrs with the hopes of winning a new Tranx 500 reel. Each contestant was given a 4-oz. surface iron wrapped in bubble wrap and covered by a heat shrink cover.

The contestants cast north along the boardwalk with a clear shot of over 100 yards. The contestants ranged from seasoned veterans to zero experience. We exposed 158 people to the new Tranx reel and BOY did we hear every excuse in the world on why the person couldn't make the perfect cast. In the end, our own Norm Campbell was the first-place winner of the new Tranx reel, with a huge winning cast of 90 yards.

Everyone worked very hard yesterday, and Doug wanted me to tell all that was there that he very much appreciated the club pulling off the event in a great fashion. There were no injuries or damage done by the wayward casts. Doug received several positive comments on the event and about the club members that assisted. Again, a big thanks for all that the put in several hours in the sun to make this a great event!
