SAN DIEGO ANGLERS WIN INTER-CLUB TOURNAMENT FOR 5th YEAR IN A ROW

With this being our last tournament of the year to earn Tournament Angler of the Year points, not only were club members battling for tournament points, but also for inter-club tournament points.

Well for the fifth year in a row, the San Diego Anglers defeated the San Diego Rod & Reel Club in the annual Inter-club Tournament that was held on Saturday, November 14. Fishing conditions were not the best and a number of club members could not make the tournament due to other commitments, but we still managed to win and keep the trophy with the San Diego Anglers.

Thanks again to all our anglers and members that made it out to the BBQ after the tournament. Our next club tournament is the Susan Johnson Memorial Mission Bay Bass Tournament in February. This will be the first tournament of 2016, so make sure to start the new year right.

Tournament Results:

1st Place: Will Bowen - \$150

2nd Place: Jim Medlin - \$100 + \$90 Jackpot

3rd Place: Mario Souza - \$75

4th Place: John Forster - \$50

5th Place: Adam Larson - \$25

Bay Bass Tournament- Volunteers Needed- Jan. 23, 2016!

It is that time of year for our largest fund raiser of the year, our 21st Annual Bay Bass Tournament sponsored by Vessel Assist / Boat U.S. For the seasoned club member, you know the routine, but for the new club members, let me explain. Our club hosts one of the largest saltwater bass tournaments in SoCal. We gather about 150 two-man teams and about another 40 kayaks and send them out into San Diego Bay for a day of fishing. They are competing for thousands of dollars in cash prizes. We then greet them with a BBQ, sponsored by Iowa Meat Farms and Ballast point Beer after they weigh their fish. Awards are given and then a giant raffle is held to end the day. In order to do this, we rely on our clubs strong sense of volunteerism. We need to get about 60 people to help Mike Kezele and I get it done in a professional manner. If you think you can help us for the day, even just for a little while please let us know. Dwayne or Mike Kezele (619-733-9156) will take your name and number if you would like to help.

BIG BROTHERS & SISTERS DAY ON THE BAY by Al Stasukevich

The 20th Annual Big Brothers and Sisters Day on the Bay once again was a success. However it turned out to be the toughest one we have had to pull off. The weather threatened us until we got everybody on the water. The more we ignored it the nicer it became and lasted long after we finished. Broken boats and bodies also plagued us as numerous skippers had to pull out. Every deck hand we had had to be moved to a skiff or runabout. While any boat that could possibly handle it was doubled or tripled up. It has been a long time since I had to manage 6 rods. I managed without a single tangle but managed quite a few bird's nests. But after all was said and done the smiles, laughter and cheers came as usual and made it all worth it. Thank you, thank you, thank you to all who stepped up and took up the slack. As usual, our ground crew led by Debbie Patenaude, made the whole day come together. Thanks to our sponsors, Everingham Brothers, Subway, Branding Iron and our 20 Year Partner Andy Kurtz and his crew at Seaforth Boat Rentals. Once again we accomplished one of the things we do best - teach kids to fish and make them smile.

Vagabond 10 Day Trip OCT 19-29 2015 by Dwayne Patenaude

With one of the strongest El Niño's in history happening, the 16 of us gathered on the Vagabond with much anticipation. Wahoo, Blue marlin, short billed spearfish were all being caught right outside the harbor entrance just a few miles! We joked that maybe Captain Mike would spend the whole trip right off San Diego but we knew that he had a great trip planned for us down south. We finished the necessary chores (Food and bait) and Mike pointed the nose of the Vagabond south to familiar waters. We gathered in the galley after Mike contacted all of his code group to get the latest fishing info. Lots of Wahoo he said with just a little bit of yellows and school tuna down in the normal fishing areas. That was fine with us as we absolutely love the adrenalin rush of Wahoo fishing! We decided to go to Alijos Rocks to chase the wily Wahoo. They did not disappoint as it seemed like the Wahoo were everywhere that Mike went. I know one thing, we must have practiced losing Wahoo in the off season as we were experts at it! The count was not what it should have been but when your with friends, it doesn't matter as we talked in excited voices as we moved from school to school trying to figure these escape artists out. I joked at one point that God must really love Wahoo as he sure has given them plenty of tools to get off the hook to freedom! We ended the exciting day by anchoring up in 250' of water and waiting for the great night bite that Mike had told us about. 100lb test, dropper loops with 12 oz of lead was being readied as we went to bed and just like clockwork, the yellows started to bite at 3 am. Those yellows sure can pull hard when the skies are dark, the coffee is brewing and the smell of bacon is coming from the galley getting ready for Craig's breakfast in a few hours! We did much better with the yellowtail fishing and when the sun came back up, the yellows stopped biting and a tired, sore bunch racked our rods. Some of us slipped back off to bed, but it did not last very long as Mike found the Wahoo again and we repeated the day, but with better luck. We honed our skills and eventually got everyone onboard a Wahoo.

The routine went on for 3 days except for when Mike took us to the bank 10 miles to the southwest of the rocks to poke around a little bit. After an hour of traveling, just as we climbed up into the shallow, the troll rods went off and the Wahoo stormed the boat. They were everywhere! But as we reeled the fish to the boat, large brown images started to appear from the depths. Sharks and lots of them!! Those that were lucky enough to elude the teeth of the Wahoo and keep the fish hooked up, were not so lucky with the teeth of the sharks. They also stormed the boat and made short work of the struggling Wahoo as they gobbled them up as fast as we could get them to the boat. Quite exciting actually as we got to see the raw power of the shark as Earls Wahoo was eaten in one bite as a hiding shark zoomed out from under the Vagabond and ate his fish in one bite as it was getting ready to be gaffed! This same scenario happened a few more times in the next couple of hours before Mike pulled the plug and went back to the Rocks!

We then ventured down to the ridge where we got a call from the Spirit of Adventure that he found a large school of Wahoo (Damn the bad luck again!) and he needed some help in the harvest. We were more than happy to oblige as we were now all skilled Wahoo fisherman and we were ready to practice our craft on a new school! We were not disappointed and we steadily started catching Wahoo and many of us were approaching our Mexican limit. Mike is very good about keeping an accurate count of the fish as it is dropped in the well, letting everyone who got a limit that they were done. We did this for a couple of days, looked at our calendar and begrudgingly pointed the boat toward home. We tried to catch some Yellowfin and Yellowtails on the way home but the El Nino hot water (81-84 degrees) had them elsewhere.

We had only one more thing to do as we traveled and that was to find some decent fishing to have our crew fishing tournament. Mike stopped at all the normal spots but the fish were not to be found. I actually thought that we might not have it, but guess what, and what a surprise, Mike found a willing school of yellows at San Martin and the game was on. We had heard throughout the trip who was going to win, with Kyle and John already trading friendly jabs on how they were going to spend their \$300 booty. But not a peep from Gordon the whole time. Fishing started and John and Kyle kept it interesting by heaving yellows on to the deck. Gordon stayed cool and calm under pressure as he was not catching anything, at least not like the other 2. We are down to the last 5 minutes and Kyle hooks a big yellow at about the same time Gordon does. The comments from the passenger peanut gallery are at an all time high, with many of the deckhands favorite sayings while the passengers are hooked up, are echoed back right at them. Kyle's fish gets ate by a sea lion and Gordon throws his fish on the deck. Time is called and the balance beam is broken out, the dust blown off and put to work. Kyle and Johns fish are close but no match for the "giant" fish Gordon caught! Gordon's fish is hung and the balance beam ever so slightly tips in Gordon's favor! Gordon won again and I couldn't help but remember the old quote, "Age and treachery will always overcome youth and skill" as Gordon kept his cool during the whole tourney as he hunkered down in the Port corner and got to work.

We pulled the anchor and headed back home to San Diego Bay, with many of us commenting on how fast the 10 days went. (Time sure does fly by when you having fun!) Debbie readied the galley for the annual "Dirty Santa" raffle and the games began. Fun was had by all as Mike pulled the names and prizes from the bag and the prizes were snatched up and "stolen" by the contestants. When then dust settled, Paul White ended up with the big prize, a beautiful Penn 2-speed Fathom 25N . Congratulations Paul. You will love that little reel as I caught most of my Wahoo on one just like it!

I would like to thank everyone on board who helped make this trip memorable as usual. My wife Debbie, Mark Mayo, Mike Sur, John Nakatani, Tony Shanley, Paul White, Bob McKittrick, Fred Dunham, Tim Macaulay, Steve Kohl and newcomers Earl Asbury, Tami Posada, Tom Mario, Steve Mayes, and Chuck Prichard.

SHELTER ISLAND BOAT RAMP TO BE REBUILT IN 2017

The California Division of Boating and Waterways has awarded the Port of San Diego a \$6.1 million grant from the Harbors and Watercraft Revolving Fund for the Shelter Island Boat Launch Facility Improvements Project. The award was announced at the regular meeting of the Boating and Waterways Commission, which was held at the Port's Administration Building on November 18, 2015.

The grant will help fund the estimated \$9.5 million needed for the project. The project entails improving the launch ramp's basin by enlarging the maneuvering area, replacing the worn-out launch ramp, increasing the lengths of the boarding floats, providing a concrete drop-off area for kayaks, and bringing the restroom to current ADA (Americans with Disability Act) standards.

This is a dedicated, public boat launch facility providing the closest access in the region to the Pacific Ocean and to the Coronado Islands. It's the most popular boat launch in San Diego Bay with nearly 50,000 boat launches a year. However, this is a heavily congested facility that needs improvement. The facility is used by recreational boaters from the general public. Small yachts, inboard and out-board motorboats, private fishing boats, fishing tournament boats and amphibious tour buses all compete for space at the popular launch ramp and its basin.

When completed, the new launch facility basin will be 82 percent larger. The new entry/exit point will increase from its current 25 feet to 60 feet. New walkways and public viewing platforms will be added and a separate area for hand-launched watercraft will be added.

Along with the Division of Boating and Waterways grant, the Port anticipates receiving \$3.35 million in funding from the Wildlife Conservation Board. The Wildlife Conservation Board has determined that the Shelter Island Boat Launch Facility project is aligned with its mission and has informed the Division of Boating and Waterways of its intention to provide funding to support construction of the project.

Construction is anticipated to take place between December 2016 and December 2017. The Port will host a public outreach event early in 2016 to educate the boating community about the project and to inform the public of alternative locations of nearby boat launching facilities to be used during construction.

Catchin' a Buzz With the Hoven Monix

The first edition of the
Hoven Argonaut Series,
the Monix, is quickly
catching the attention of

fishing, SUP, and water enthusiasts everywhere.
Sure, all fishing shades are polarized, but these come
with a built in retainer and a unique feature that makes
them easy to take on and off, they split apart right
where the lenses come together. However, they won't
just fall off your face or break. There's a super strong
magnet that holds them together until you're ready to
take them off. Plus, a half-dozen lens options are
available to suit any light condition outside. Set to en-
ter big retailers like Sports Chalet June 1st.

Father's Day is right around the corner, wouldn't Dad
want something worth fishing for?
